

## (CL-2005) Database Systems Lab

### Lab 5 Task

#### NOTE:

- Submit pdf/word document containing the screenshot of the output and the source code.
- Use prepared statements

#### Exercises

##### 1. Themepark Record Page

Create webpage in which all the themeparks that have been registered should be shown on this page in a table format which contains all the themepark details

ThemePark Records

| Park Code | Park Name     | Park City    | Park Country |
|-----------|---------------|--------------|--------------|
| FR1001    | FairyLand     | PARIS        | FR           |
| NL1202    | Efling        | NOORD        | NL           |
| SP4533    | AdventurePort | BARCELONA    | SP           |
| SW2323    | Labyrinthe    | LAUSANNE     | SW           |
| UK2622    | MiniLand      | WINDSOR      | UK           |
| UK3452    | PleasureLand  | STOKE        | UK           |
| ZA1342    | GoldTown      | JOHANNESBURG | ZA           |

##### 2. User ID Record Page with Search Bar

Create another webpage in which all the users that have been registered should be shown on this page in a table format which contains all the user details  
Add a search option as well to search for a specific user details using user id.

User ID Records

Search User id

| User id | First Name | Last Name | Email            | Password |
|---------|------------|-----------|------------------|----------|
| 1207    | Sami       | Ullah     | sami@gmail.com   | fast123  |
| 1301    | Amir       | Abbas     | amir@gmail.com   | nuces12  |
| 1305    | Haroon     | Khan      | haroon@gmail.com | uet123   |
| 1368    | Noman      | Rahat     | noman@gmail.com  | hello123 |
